## CROWN

Charlotte,  
Reconnecting **O**urselves **W**ith **N**ature;  
A local chapter of the  
North Carolina Wildlife Federation

March Meeting Topic:  
"Charlotte: the sustainable city"

**CROWN** invites you to our March 20th meeting featuring **Rob Phocas, Esq., LEED AP**; Energy & Sustainability Manager, City of Charlotte. Rob will inform us of the development and history of the City's Energy and Sustainability program. How long has Charlotte had this program and what are the accomplishments to date? What's on the horizon and how do they prioritize the many categories that fall under energy and sustainability, including quality green space? How does the city work with Mecklenburg County to create goals, objectives as well as create the cooperation needed to move the region forward.

This is a unique opportunity to learn about specific projects and plans as well as how you might become a key player in Charlotte's transition into a sustainable city.

Please join us and bring a  
friend, on Thursday, March 20th,  
at 7PM, in Rodgers Hall,  
Queens University.

**Free event, Free parking!**
